VOL. XXV, NO. 280 GAINESVILLE, FLORIDA, SATURDAY, FEBRUARY 6, 1909 TEN CENTS A WEEK

PRESIDENT DECLARES THE BILL IS OFFENSIVE

California Legislature Passes Bill Shutting School Doors to Japs--Law Will Be Tested.

SACRAMENTO, Cal., Feb. 5.—With the defeat in the lower House yesterday of two of the anti-Japanese measures, followed by the unexpected passage of a third bill segregating Japanese school children in separate schools along with Chinese, Koreans and other Asiatics, President Roosevelt again has taken a hand in the anti-Japanese legislation that for the last week has drawn international interest to California.

Hardly had the bill been passed by the assembly before Gov. Gillett received the following telegram from the President:

Will Have to Test Bill.

"WASHINGTON, D. C., Feb. 4.—J. M. Gillett, Governor of California: Your kind letter just received. What is the rumor that the California Legislature has passed a bill excluding the Japanese children from the public schools? This is the most offensive bill of all, and in my judgment is clearly unconstitutional, and we should at once have to test it in the courts. Can it be stopped in the Legislature or by veto?

(Signed) "Theodore Roosevelt."

The Governor immediately sent a reply, the nature of which he declines at this time to make public, and he requests from the President an immediate answer.

"Japanese" Mentioned.

The bill passed places the Japanese in the same classification with other Asiatics and inserts the word "Japanese" in the present statute providing for the segregation in separate schools of "mongolian" children.

By this action the lower house of the California Legislature has taken the step which the Board of Education of San Francisco intended to take two years ago and which was abandoned after the board and former Mayor Eugene E. Schmitz were called to Washington and had several conferences with President Roosevelt.

Two Bills Were Defeated.

Grove L. Johnson's bill compelling Japanese to attend separate public schools passed by a vote of 48 to 26.

Mr. Johnson's other bills preventing aliens from being members of board of directors and restricting them in residence districts at the option of boards of supervisors, were defeated, the former by a vote of 54 to 15. The latter measure failed of passage because of a tie vote, the friends of the bill being unable to muster the required forty-one vote. Roll call finally stood 37 to 37, after a call of the House and several changes from aye to no and vice versa. The principal debate was upon the residential segregation bill. Many who voted against the land and corporation measures announced that they favored segregation of undesirable aliens, because that was effective anti-Japanese legislation.

Drew Wanted Another Vote.

Shortly after the disposal of the Johnson bills, Mr. Drew moved that the vote by which his land bill was defeated Wednesday be reconsidered. He offered to amend the measure by striking out a section which it had been declared violated the treaty right of several nations. He declared that as the school bill had just been passed and that was the one against which the President objected most strenuously two years ago, the assembly should go a step further and pass land bills also.

The motion was lost, the vote being 36 ayes and 38 noes. This showed a gain of ten votes for the proponents of the bill.

Race Feeling Still Runs Very High in Pittsburg

PITTSBURG, Pa., Feb. 5.—The situation in the Herron Hill district, where over 130 negroes have been arrested during the past couple of days, following the many attacks on young white girls in that section of the city, is quiet tonight, but a double force of police and plain clothes men is still on duty, as there is a strong undercurrent of racial feeling that needs but a slight excuse to make it break forth in a violent form.

The authorities believe that in Mack McGee, a negro arrested in the raid Tuesday night, they have the man who has been terrorizing the Herron Hill district. McGee was identified yesterday as the negro seen running away from the scene of the most recent assault on Miss Ida O'Neill, the victim of the attack, who gave a description of the cap worn by her assailant that fits the head gear worn by McGee. However, the police are continuing the search for unemployed negroes and occasional arrests are still being made.

Judge John D. Shafer yesterday sentenced William Martin, colored, to serve five years in the Western penitentiary, the limit of the law on a charge of assault and battery with intent to commit a more serious crime on Mrs. Mary Shafer several weeks ago.

Many negroes of the Herron Hill district are moving to the suburbs to get away from the scene of the trouble.

The authorities have sent out decoys in the troubled section in an effort to catch negroes who have been molesting white women. Young men, dressed as women, and armed with black-jacks, walk through the district, hoping to have the guilty negroes accost or attack them.

A report was made to the police last night of an attack on a girl in the Lawrenceville district of the city, about two miles from the Herron Hill section. Margaret Blossing, aged 18 years, alleges that a negro came to the house where she was employed late yesterday, and when refused the keys to the automobile garage, choked her and hit her over the head with a steel bar. The girl was not seriously injured and the police have been unable to capture the assailant. Because of this, the authorities have increased their vigilance in that district materially fearing a repetition of the Herron Hill trouble.

Soliciting for Good Cause.

Mrs. A. V. Cherry and Miss Bessie Lipe, two ladies from the Bethlehem Orphanage Home situated near Meansville, Ga., were in the city all of yesterday soliciting subscriptions for that institution. They met with a liberal response from the people and departed for other points.

WITNESSES TESTIFY TO JONES' BRUTALITY

SOUTH CAROLINA MAN CHARGED WITH WIFE MURDER.

One Witness Had Seen Him Drag His Wife from House By Her Hair and Beat Her.

UNION, S. C., Feb. 5.—Interest increases in the sensational Jones murder case now on trial here. Judge Memminger yesterday ruled that any evidence as to threats by Jones on the life of his wife and evidence as to their relationship since their occupancy of their new home began three years ago would be allowed. This is regarded as an inning for the prosecution and much sensational testimony will be brought out soon.

Mrs. Whittock swore to seeing numerous bruises and scars on her sister, Jones' deceased wife, during life time, and told how, during a visit to her sister shortly before the alleged murder she heard Jones and his wife cursing in the room which Jones and his wife occupied, and a sound as if someone had been knocked down. Witness asked Jones to be good to her sister, and she referred to an incident when he had taken his wife from a school exhibition and on the way home had beaten her with bottles. He said he would rule his own house. A negro testified that Jones invited him to dine with him and Mrs. Jones waited on the table. The negro objected but Jones told him it was all right.

Numerous witnesses testified to various instances of Jones' alleged brutal treatment of his wife and different persons had seen many bruises and scars on her body alleged to have been the result of his blows. One witness testified that he had seen Jones drag his wife by her hair from the house and whip her.

The State may close its case this afternoon.

NEGRO RUNS AMUCK IN MEMPHIS STREETS

RUNS DOWN STREET FIRING AT ALL HE SEES.

All His Bullets Went Wild—Pursued and Shot to Death Still Fighting.

MEMPHIS, Tenn., Feb. 5.—Following a daring hold-up on a busy thoroughfare yesterday, Henry Morton, a negro armed with a revolver and with pockets filled with ammunition, ran amuck firing repeatedly into street cars and houses and at pedestrians and terrorized a section of North Memphis before he was shot to death by police and citizens.

After relieving another negro of a bundle of hides Morton endeavored to force a trade with a produce dealer at the point of his pistol. Failing, he sent a confederate to dispose of the booty, but both escaped before the arrival of the police. The negro was finally located aboard a street car but as an officer approached he jumped from the car, firing blindly several times. As he ran he continued to fire. As pedestrians appeared the negro shot hurriedly and continued his race. Several groups of school children were fired on and firing into a house, the bullets of the negro narrowly missed a woman occupant.

A riot call brought a squad of police who were joined by several score of citizens and Morton was finally corralled on a porch. At bay, the negro continued to fire on his pursuers but his bullets went wild, while a volley from the pursuers put an end to the battle.

JUDGE SAYS CARMACK'S MAN HAD THE JURY LIST

In Reply to Intimations That They Had Been Tampered With--Juror Whitworth's Case.

NASHVILLE, Tenn., Feb. 5.—When an early adjournment was taken yesterday in the trial of Col. Duncan B. Cooper, Robin J. Cooper and John D. Sharpe, charged with the murder of E. W. Carmack, the jurors passed for the trial of the case had been reduced from 11 to 10 by the removal of Juror Whitworth and a new venire of 500 talesmen had been ordered summoned for appearance Monday and from these both the State and defense express the hope that the two jurors necessary to complete the trial will be secured.

When court opened Judge Hart said: "There have been intimations in the press that the jury list has been tampered with. I wish to say that the jury box from which the names are drawn is in the custody of Circuit Clerk Lewis Hitt. The names in it were placed there two years ago. It remains sealed and is controlled by Hitt, who was Carmack's campaign manager. I make this statement in justice to everyone concerned."

Was Against Patterson.

Judge Hart seemed to feel very deeply the insinuation that this was an effort made to get men on the panel friendly to the defendants. Very few if any in the room had heard of such a charge, which was sent to the judge in the form of a clipping from an out-of-town paper.

The court then drew the new venire and sent for Juror Whitworth. The latter was asked to explain his remark that he was against Gov. Patterson.

"I said I was aganist him because of his abuse of the pardoning power and in turning criminals loose."

Judge Anderson of the defense cross-examined the juror.

Whitworth declared he would much prefer to escape service, but denied any bias.

No Disgrace for Whitworth.

The court then briefly reviewed the charge. He held that the claim that the juror had said that the defendants should be hanged was controverted. On the second charge that he had said that Gov. Patterson had a hand in the killing, the judge held that the juror did not deny it specifically enough.

"Therefore," the court concluded, "I deem it best to excuse Mr. Whitworth from the jury."

The State objected strenuously and declared that the court's action would discredit and disgrace Whitworth. Judge Hart hastened to say that there was no ground for such a statement. The State continued to fight the decision and in lengthy speeches sought to change it without avail. Court then adjourned until Monday, when the efforts to secure two more jurors will be resumed.

DAUGHTERS PROTEST.

Object to the Award of Prize for Essay on Lee.

BATON ROUGE, La., Feb. 5.—A vigorous protest has gone up from the Louisiana division of the United Daughters of the Confederacy against the award for $100, a prize offered by the organization of the Daughters for the best essay dealing with the life of Robert E. Lee, to Miss Christine Boyson, a student at Columbia University.

The subject of the winning essay was Robert E. Lee—A Present Day Estimate. The Louisiana Daughters claim that it abounds in misrepresentations and reflections on the South. Miss Boyson is from Minnesota.

The judges of the contest were Dr. E. A. Alderman, president of the University of Virginia; Dr. Alphonso Smith, formerly of the Louisiana State University, and Dr. Finley of New York University.

A committee was named to investigate and bring the matter before the officers of the national organization.

Man Murdered in Jersey Had Too Many Wives

NEWARK, N. J., Feb. 5.—There were sensational developments yesterday in the case of Frank Wilhelm, the contractor who was found murdered in his home here Monday. The revelations included the charge that Wilhelm had three wives living and that he had never been divorced. Another occurrence of interest was the action of the police in suddenly bringing Mrs. Mary J. Wilhelm and Nicholas Sicca, a boarder in the Wilhelm home, both held in connection with the murder, in the presence of the body of the murdered man.

Mrs. Wilhelm, though she became hysterical, withstood the test fairly well, but Sicca was so disturbed that his arraignment in court, set for yesterday, had to be postponed.

Mrs. Fredericka Wilhelm of New York claimed she was married to Wilhelm in Jersey City in 1894, soon after he had deserted his first wife, Hannah Wilhelm, who was also his stepsister. Two years later, she said, she discovered his perfidy. When she accused him he deserted her, she alleged, and her year-old daughter, and a baby soon to be born and fled with his stepsister wife. Since then she had not heard from him until the child, then unborn, and now a lad of 12 years, read of his murder in a newspaper Tuesday and recognized his picture in the paper as that of the man whose picture, in their home, he had been told was his father. Mrs. Fredericka Wilhelm does not know what became of Hannah Wilhelm.

Mrs. Fredericka Wilhelm and her sister, Mrs. Maria Armater of New York, fainted at Wilhelm's bier yesterday while the funeral was in progress and when as they declared they identified the dead man as the husband of Fredericka Wilhelm the last named fell dramatically across the coffin in a complete state of collapse, while her sister slipped to the floor in a faint.

Mrs. Mary J. Wilhelm, the wife now held in connection with the murder, was not permitted to attend the funeral, although she had requested permission to do so.

COMING ATTRACTIONS.

New Baird Theatre.

Thursday, Friday and Saturday, Feb. 4, 5, 6—Eva Ray and Company.

Wednesday, Feb 10—"The Late Mr. Jones," by Theo Hudgins and Company, benefit Gainesville Guards.

Electric Theatre.

New Moving Pictures, each afternoon and night, except Sunday.

At The Baird Theatre.

Those who witnessed the performance of Miss Eva Ray at The New Baird Theatre last night were even more bewildered than the audience on the opening night, as the work of this wonderfully-gifted young woman seemed deeper, if possible, than at her initial performance.

The cabinet work of Miss Ray, which is given before a committee of citizens directly upon the stage, is the best seen in Gainesville in years. Those who volunteered to go upon the stage and "assist" in the various feats connected with this work last night were in "total darkness," like Col. Chubb and others on Thursday evening, as far as an explanation of "how it was done" is concerned. Col Chubb was there again last night, but he has abandoned further effort in solving the mystery. L. J. Burkhim is another of the bewildered ones.

Many questions were answered during the twelve minutes that Miss Ray labored under the somnolent spell.

Miss Florence Arnold has proven a favorite here by her beautiful singing. She was encored several times last night.

This afternoon a special matinee for ladies only will be given, beginning at 3:30 o'clock, when Miss Ray will answer questions of a private nature for all who come. The admission to the matinee will be 25 cents to all.

The company will conclude their engagement here tonight.

Electric Theatre.

The usual fine display of moving pictures last night at the Electric Theatre was enhanced in pleasure by the appearance of "Dakota Bob," who was simply good in his paper ornament manufacture and talent for mind reading. The large crowd that were present were lavish in their commendation of his feats, and his peculiar mode of dressing and Western free way of speaking evidently took with everyone.

This afternoon he will give a Children's Carnival at 3:30 o'clock, giving a present to the girl and boy who succeeds in making the most words out of the letters spelling "Electric Theatre." He will appear for the last time at the exhibition of pictures tonight, and promises to give the audience a sensation they will appreciate.

Six Nights "Go as You Please" Race.

How many tired fathers and mothers in this town enter this race every night carrying a baby? And they wonder what the matter is. Chances are the child is starving—worms are eating all of its food. Most children have worms—yours needn't. White's Cream Vermifuge will get rid of the worms and strengthen the child. Price 25 cents per bottle. Sold by W. M. Johnson.

Funeral of Little Elmo.

The funeral services over the remains of little Elmo, infant son of Mr. and Mrs. F. A. Roux, occurred at the cemetery yesterday afternoon, Rev. F. R. Bridges officiating. The remains were met at the train by a large number of friends and acquaintances of the family and escorted to their last resting-place.

STOMACH LIVER LUNGS

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which *seem* remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

GIVEN AWAY.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

CELEBRATED SHOOTERS TO GIVE EXHIBITION FEB. 12

The shooting fraternity was delighted yesterday when it was announced that the "Annie Oakley-Maxwell squad" of the Union Metallic Cartridge Co. and the Remington Arms Co. would give a free exhibition shoot here Friday, February 12, at 3 o'clock.

Annie Oakley was for 17 years the leading attraction of Buffalo Bill's Wild West Show. She performs practically every feat possible with shot gun and rifle. During the summer of 1908 while a guest of Mr. and Mrs. Fred Stone, Annie Oakley made a world's record with a high power rifle, hitting 1,016 1½-inch brass discs thrown in the air at a distance of 21 feet, without a miss, using a Rem. .25 cal. autoloading rifle. At the same place, a few weeks later, the shot at 500 targets, 17 yards distant, breaking 483, using U. M. C. shot shells exclusively, and a Remington shotgun. She is assisted by Geo. Maxwell and Frank Butler.

Mr. Maxwell is one of the greatest trap shooters in the country today. Last year he broke 95.2 per cent of 10,000 targets, which places him near the top of the best shots in the world. He broke more targets at the last Grand American Handicap than any other of the 320 contestants.

Frank Butler is one of the best-known living shots. He has shot in fourteen different countries.

It is to be hoped that sufficient interest will be aroused to perfect an organization of a local gun club.

Exhibition to be held west of Hon. Frank Clark's residence, on a vacant lot.

Everybody invited. Shooters, bring your guns and enter into this interesting sport.

WAS GETTING BOOZE BY FORGERY ROUTE

W. D. DEBOSE CAUGHT AT GAME BY DEPUTY DOUGLASS.

Called for Second Shipment, When He Was Placed Under Arrest at Express Office.

W. D. DeBose, a young negro of this city, was arrested Friday morning by Deputy Sheriff J. B. Douglass on the charge of forgery as he applied for a box of "booze" shipped from J. J. Williams of Jacksonville to the name of Harry W. Smith.

There has been in a small way a system of forgery going on here for some time, which the officers have been quietly at work upon, and it is thought that the arrest of DeBose will put a stop to the practice for some time to come at least. Forgeries have occurred on W. R. Thomas for a $9 check, and W. G. Shehee for a small amount.

It is said that DeBose would forge the checks and order booze on them in the name of Smith, afterwards applying to the express company with a written order for the package. He had successfully gotten one package delivered in this manner, but as Mr. Williams had learned of the fraud he shipped his second order and was on the lookout for the party who would call to claim the package, with the result that DeBose is now behind the bars.

DeBose implicated another negro by the name of C. C. Wilson, who was also arrested yesterday, and they will be required to explain to the judge how it all happened.

HOUSE TOTALLY DESTROYED BY FIRE

The two-story residence owned and occupied by Rev. J. R. Montgomery, colored, on Fifth street, in the northwestern section of the city, was totally destroyed by fire between 8 and 9 o'clock last night. The firemen responded promptly, but the house was doomed before the alarm was sent in.

A fish fry was in progress at Rev. Montgomery's, but it is not known how the conflagration started. All the fish were fried.

The building was insured for a small amount.

At the Tabernacle.

Yesterday was a great day at the Tabernacle. Dr. Price spoke in the morning on the Bible and Evangelism, in the afternoon on the Evangelic Church, and at night he preached a great sermon, bearing on the same lines. Dr. Price is interesting, very practical, and devout. The congregations are growing at each service, and by the last service, which will be Sunday night, the large auditorium will no doubt be filled to its capacity. Everyone should avail themselves of hearing these great sermons on his greatest of all themes, Evangelism.

There will be only one sermon today—3:30 p. m. Don't miss it. Evangelism in the Home will be the theme.

Chinese Flat Noses.

"The Chinese mother," the ethnologist explained, "carries her babe in a sack on her back. The babe's nose is pressed against her. Day in and day out, all through its babyhood, the little thing's soft and malleable nose is pressed against its mother's back. Hence it is no wonder, is it, that the Chinese are a flat nosed race?"

Too Much.

"Of course," said the lady with the steel bound glasses, "I expected to be called 'strong minded' after making a speech three hours long in favor of our sex, but to have it misprinted into 'strong winded' was too, too much."

LITTLE BABY HORRIBLY BURNED

By Boiling Grease—Skin All Came off One Side of Face and Head—Tried an Ointment which Made It All Fester—Wee Sufferer Seemed Disfigured for Life.

CURED WITHOUT A MARK BY CUTICURA

"About a year and eight months ago my baby, aged ten months, was sitting on the mat beside the fender and we were preparing the breakfast when the frying-pan full of boiling grease was upset and it went all over one side of the baby's face and head. One of the family ran and wiped the scald with a towel and you may think what a mess she made, pulling the entire skin off. We took her to a chemist who told us to get a doctor, which we did. He tended her a week and gave me some stuff like lard to put on. But it all festered and I thought the baby was disfigured for life. A woman close beside me told me to try Cuticura Ointment. I used about three boxes and it was wonderful how it healed. In about five weeks it was better and there wasn't a mark to tell where the scald had been. People used to ask me if that was the baby that was scalded and they would hardly believe me when I told them she was and what cured her face. Her skin is just like velvet and I have never been without Cuticura since. Cuticura cured three other children of ringworm besides, so I have good cause to thank it for what it has done. Mrs. Hare, 1, Henry St., South Shields, Durham, England, March 22, 1908."

ICE FACTORY TO BE BUILT NEAR DEPOT

ON THE OLD SITE OF GAINESVILLE ICE COMPANY.

Interested Parties Are Keeping Plans Quiet, But Work Will Soon Commence on the Building.

Plans for the erection of another ice plant for Gainesville have been completed, and it is understood that work will commence on the building within a very short time.

Nothing definite could be learned from the promoters of the proposed plant, but it is generally understood that the plant will be a large one and will have a capacity of twenty tons of ice per day, which will give Gainesville three factories, with a total capacity of seventy tons of ice daily.

The location of the new plant will be near the intersection of the two railroads, at the foot of West Main street, where the factory of the old Gainesville Ice Company was formerly located.

Very few of the gentlemen composing the new company are known, but it is known that sufficient capital is interested in the project to extend the company larger if necessary, and they will not depend upon the field here, but will reach out in all sections of the State for business.

The new plant will be in operation for some of the business the coming summer.

GAINESVILLE NOW REAPING HARVEST

LETTUCE SOLD FRIDAY FOR $3 AND $3.50 PER BASKET.

Price Will Probably Reach High Mark of $6 and $7 Next Week—The Cabbage Crop.

Gainesville canvas lettuce growers are now reaping a harvest on the crop and the next few weeks of the market is expected to be good for the large number of growers that plant regularly under canvas and who always make a hit during February and March.

Practically all of the lettuce has been shipped from the southern part of the State, hence the situation is nearly controlled just at the present time by the farmers who have the protection of canvas and they welcome the rise in price with a very glad smile.

Lettuce sold in the New York market Friday for $3 to $3.50 per basket, and the price will doubtless go up to $6 and $7 within the next few days, as the fancy frame article is very scarce and this immediate section is about the only place to supply the great demand.

Two cars left here Friday night, and from now until the season closes about one car will be shipped every day until the growers commence the cutting of the spring crop, which is just now being put out by the farmers.

There is still no change in the report of the cabbage crop as to the amount of damage done to the vegetable. An experienced planter says tne past few days has shown the crop to be a good deal more damaged than was at first suspected, and unless a rain falls soon he expects fully 50 per cent of the crop will be lost, but with a favorable rain it would average about 30 per cent loss.

THEY INJURE CHILDREN

Ordinary Cathartics and Pills and Harsh Physic Cause Distressing Complaints.

You cannot be over-careful in the selection of medicine for children. Only the very gentlest bowel medicine should ever be given. Ordinary pills, cathartics and purgatives are too apt to do more harm than good. They cause griping, nausea and other distressing after-effects that are frequenty health destroying and a lifelasting annoyance.

We personally recommend and guarantee Rexall Orderlies as the safest and most dependable remedy for constipation and associate bowel disorders. We have such absolute faith in the supreme virtues of this remedy that we sell it on our guarantee of money back in every instance where it fails to give entire satisfaction, and we urge all in need of such medicine to try it at our risk.

Rexall Orderlies contain an entirely new ingredient which is odorless, tasteless and colorless. It embraces all the best qualities of the soothing, laxative, strengthening and healing remedial active principles of the best-known intestinal regulator tonics.

Rexall Orderlies are extremely pleasant to take, are particularly prompt and agreeable in action, may be taken at any time, day or night; do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very natural action upon the glands and organs with which they come in contact, act as a positive and regulative tonic upon the relax, dry muscular coat of the bowel, remove irritation, dryness and soreness, overcome weakness, and tone and strengthen the nerves and muscles, and restore the bowels and associate organs to more vigorous and healthy activity.

Rexall Orderlies not only cure constipation, but they remove the cause of this ailment. They also overcome the necessity of constantly taking laxatives to keep the bowels in a normal condition.

There is really no similar medicine so good as Rexall Orderlies, especially for children, aged and delicate persons. They are prepared in tablet form and in two sizes of packages; 12 tablets, 10c, and 36 tablets, 25c. J. W. McCollum & Co., corner East Main and Union streets.

This wonderful household remedy stops the pain of sprains, burns or bruises. It relieves rheumatism or neuralgia. It cures colds, cramps, colic, diarrhoea. There ought to be a bottle on your shelves just now, ready for the first sign of trouble. The new size bottle is 35 cents and there is also the 50-cent size. Be sure your druggist gives you Perry Davis'.

NATIONAL FORESTS GROWING IN FAVOR

The actual use of the varied resources of the Government's 168,000,000 acres of national forest land is on the increase, according to the report of the work for the fiscal year 1908. The report says that from an administrative standpoint the most striking fact of the year was the remarkable increase which took place in the volume of business transacted.

This growth in business done by the United States Forest Service last year over the previous year is partly brought out in the following statement showing percentages of increase: In the number of timber sales, 236 per cent; in the amount of timber cut under sales, 102 per cent; in the number of free timber permits, 76 per cent; in the number of grazing permits, 11 per cent, and in the number of special-use permits, 67 per cent. That the additions to existing national forests and new creations caused this increase only to a small extent is shown by the fact that the area increased is only 11 per cent. In speaking of this feature of the work of the Forest Service in his annual report, the Secretary of Agriculture says in part:

"The growth in the volume of business arising from use of the forests has created a very serious administrative problem. Last year 78 per cent of the time of the administrative and protective force was taken up by the demands of national forest business. The average forest area to each officer supposedly available for patrol duty was about 120,000 acres; but with more than three-fourths of the time of these officers occupied with timber sale, grazing, and other business, the force actually available for patrol was equivalent to about one man to each 500,000 acres. That under these circumstances the fire losses in a year of exceptional danger were kept down to a very small figure in comparison with the value of the timber exposed and the damage from forest fires elsewhere, is a matter of congratulation.

"The risk incurred, however, is out of all proportion to the added cost which more adequate protection would involve. I am convinced that the provision made for the care and use of the national forests has become inadequate to their needs, and I have therefore submitted estimates for the fiscal year 1910 which ask for a substantial increase in the appropriation. With the further growth in business which is certain to take place during the present year, even less protection can be given than has been given in the past. Indeed, the point has now nearly been reached at which it is not even a choice between providing for the needs of those who would use the forests and protecting the forests themselves."

The truly lazy man is not a common figure in this country, and when he does appear he is not treated with proper respect. Ideal laziness is an art as difficult as playing on the violin. A writer in the Washington Star tells of one member of the Sons of Rest who deserves recognition.

"Yes," answered the woman who was carrying an armful of wood. "John has only two regrets in life. One is that he has to wake up to eat, and the other is that he has to quit eating to sleep."—Youth's Companion.

The Facts About Pe-ru-na.

Is Peruna an alcoholic beverage in disguise? Is it possible to use Peruna as a substitute for whiskey? Do people buy Peruna and use it as a toddy, or a bitters, or a bracer?

It would be the easiest thing in the world for any one to demonstrate the falsity of such statements. Let any one go to the drug store and purchase a bottle of Peruna. Let him undertake to use it as a beverage, or take this remedy in doses considerably larger than those prescribed on the bottle. Would the result be alcoholic intoxication? Nothing of the sort. Let any one try it and see.

Peruna is a medical compound quite heavily loaded with medicinal ingredients. If taken in doses larger than prescribed it would produce a positive drug effect. No one could take it as a beverage. If any one doubts these statements, try it and see. We know that Peruna cannot be used as a beverage; that it will not intoxicate; that it cannot be used as a substitute for liquors. We guarantee that PERUNA CONTAINS NO CHEAP WHISKEY—OR ANY OTHER WHISKEY, for that matter.

It contains a small per cent. of cologne spirits, absolutely essential to dissolve and hold in solution medicinal ingredients, but the drugs contained in Peruna prohibit its use as a beverage. It would be the easiest thing in the world for any one to demonstrate this if they chose to do so.

Peruna is sold everywhere. THE INGREDIENTS ARE PLAINLY PRINTED ON EACH BOTTLE. It has been said over and over again that chemists have analyzed Peruna and found it to contain only cubebs and whiskey. Now we challenge any chemist to demonstrate any such statement. Let any one who has even a smattering knowledge of chemistry purchase a bottle of Peruna and see whether or not it contains whiskey, find out for himself whether or not it is composed of cheap whiskey and cubebs. Of course, cubebs is one of the ingredients of Peruna, but there are many other ingredients. It contains hydrastis canadensis, corydalis formosa, collinsonia, and at least four other medicinal ingredients. To be sure, no chemist could so analyze Peruna as to be able to identify the various medicinal ingredients. This is beyond the ability of any chemist. But any ordinary chemist would be able to say that Peruna is heavily loaded with medicinal ingredients of some kind in addition to cubebs.

Now why are these statements repeated when their falsity could be so easily demonstrated? Simply because there is continued hostility toward Peruna on the part of the medical profession. Very likely the magazines which took up the crusade against Peruna and denounced it as a cheap beverage were misled by statements of the medical profession. Probably they were sincere in their attitude towards it. But now, after all these things have been said and refuted, it would seem to be in order for such people to use a little fairness and common sense in the matter.

Every time any one says that Peruna is nothing but cheap whiskey and cubebs he is telling a lie, an absolute falsehood. Most people intend to speak the truth. But the prevalent habit of repeating other people's statements, without investigation as to their truth, has led many well-meaning people to say these false things about Peruna.

Used according to the directions on the bottle, PERUNA IS A SAFE AND RELIABLE CATARRH REMEDY, but, like any other good medicine, if taken in excess of those doses, it will produce drug effects very unpleasant to the person who takes it.

It is therefore up to every honest person to quit making such statements concerning Peruna, or acknowledge that he is repeating slanders about which he knows nothing. One might just as well say that Castor Oil is an intoxicant; that if taken in large enough doses it will operate as a "booze." If people never tried to see, but simply repeated such statements about Castor Oil, the majority of people would come to believe them. It is no easier to demonstrate such a statement about Castor Oil than it would be about Peruna.

Any one who takes Peruna knows that such statements are false. To say that Peruna is cheap whiskey and cubebs may constitute good material for jokes on the vaudeville stage, but there is no excuse for any one who pretends to be truthful saying over again this oft-repeated falsehood.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

In many cases individual character must be rudely shaken by adverse circumstances in order to reach its fullest development.

The work of constructing good roads is progressing in nearly every county in Florida. No better use could be made of the people's money.

Most people are anxious to live, and if they were only as anxious to live well as they are just to live, how much better this world would be.

Don't forget the meeting at The Dutton Bank at 3 o'clock this afternoon for the purpose of organizing a Society for the Prevention of Cruelty to Dumb Animals. Such an organization has long been needed in Gainesville and we trust that the laudable efforts of the ladies who have started the movement will be properly encouraged.

Nine years ago Pensacola undertook its first organized celebration of Mardi Gras, the festival of "Shrove," or "Fat" Tuesday. This initial celebration proved such a decided success, and elicited such a universal demand throughout the section contiguous to the Deep Water City for an annual repetition of the celebration, that Mardi Gras has developed into Pensacola's most important annual gala occasion. From year to year the celebrations of the festival have enhanced in scope and magnificence until now none of the great New Orleans carnival parades excel Pensacola's big Tuesday night parade.

"In Nebraska Democrats control the Legislature and State government for the first time in a good many years," says The Charlotte (N. C.) Observer, "but there is no Senatorial vacancy and Republicans are more than likely to recapture the Legislature before one occurs. So Democratic managers now propose to submit the Senatorship question to the people while they are Democratically inclined and while the appeals made last fall for Mr. Bryan as the State's most distinguished citizen, a focal point of State pride, are still emotionally vibrant. With this end in view a bill has been introduced into the Legislature. Whatever its fate, we hope that our ancient friend the Peerless will after many tribulations finally land a job somehow."

"Mr. Taft possesses the confidence of the people of the United States in an unusual degree," says The Norfolk (Va.) Pilot. "They credit him with sound judgment, with courage and candor. If he shall return from his mission convinced that the canal has been wisely projected—that no disconcerting obstacles have developed to cause a change in the prosecution of the original plan, and that up to now the results are commensurate with the cost—we are confident that the popular uneasiness will be set at rest, and that his verdict will be accepted as conclusive of all contrary assertions. We further believe that, should he find a mistake has been committed, he will not hesitate to recommend an abandonment of the present scheme and the adoption of the sea-level route which was favored by a majority of the engineers first called into consultation by President Roosevelt."

OUR WEALTH IN FARM ANIMALS.

For those who, either in exultation or sorrow, have insisted that the automobile was destined to put the horse out of business, there is some information of real interest in a bulletin just issued by the Bureau of Statistics of the Department of Agriculture. The figures presented in that document show not only that the horse has not been abolished, but that he is an item of steadily increasing importance in the economy of animal industry.

It appears, for instance, that the horse population of the United States on Jan. 1, 1909, numbered 20,640,000, valued at $1,974,052,000. These figures represent an increase of 648,000 in the number and $106,522,000 in the value of American horses since Jan. 1, 1908. It will be observed that, instead of being exterminated by self-propelled vehicles, the horse is still in active business and on an increasing scale. A curious fact, derived from other sources, is that in New York, Chicago and other cities where automobiles are used most extensively, the horse population is constantly growing.

The bulletin above mentioned contains much information as to our national wealth in farm animals in general. For example, there were in the United States on Jan. 1, 1909, 1,053,000 mules valued at $437,082,000, an increase of 184,000 in number and $20,143,000 in aggregate value during the year. There were 21,720,000 milch cows, valued at $702,945,000, an increase of 526,000 in number and $52,883,000 in total value. The swine numbered 54,147,000, these figures representing a decrease of 1,937,000 in number. The sheep numbered 56,084,000, valued at $192,632,000, an increase of 1,453,000 in number, but the total value of the herds decreased $19,104,000.

The value of the country's farm animals of all classes on Jan. 1 of this year amounted to a total of $4,525,250,000, an increase of $194,029,000 since Jan. 1, 1908. In other words, these four-footed assets of the American people are worth enough money to pay the interest-bearing debt of the United States Government more than four times over. It is facts like these that provoke the American farmer to laugh contemptuously at the cheap demagogues who whine about his "poverty."

CURRENT COMMENT.

The New York Post says: "Mr. Bryan declares that, after one more defeat, he will retire from politics and enter the ministry. But has he not heard of the 'ministerial dead-line,' beyond which he will have passed if he delays four years? 'Why do you wait, dear brother?'"

The Hartford Times says: "A murderer, condemned to death in South Dakota, has been invited to deliver an address before the Legislature of that State. The Kansas Legislature is engaged in producing new laws to curtail drug store traffic in alcohol. The Oregon Legislature has passed a law limiting the length of pins in women's hats to ten inches. Texas, Arkansas and Maine have not yet been heard from, but it is evidently to be a great year for freak legislation at the State capitals."

The Louisville Courier-Journal says: "Among the provisions of the Sherley bill amending the national bankruptcy act is one authorizing settlement between a debtor and his creditors after he has undergone examination, but before he has been adjusted bankrupt; another for the prevention of creditors securing unjust advantages over other creditors, and still another more clearly defining the scope of the bankruptcy act. All these amendments make for the improvement of the law by strengthening its efficiency to accomplish the end sought by its institution."

The Chattanooga News says: "A man made oath before Judge Hart at Nashville recently that he was 55 years old; that he had not read a newspaper in twenty-eight years; that he had heard somebody say that Mr. Carmack was dead. He had never formed an opinion—probably in all of his fifty-five years of life on any subject whatever. Another veniremen was accepted because he had never read a newspaper. He was 48 years old, and a farmer. A State that permits such a condition of affairs to exist year in and year out is short on constructive statemanship."

GAINESVILLE,

—THE—

University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

AGED LIONS.

Big Brutes Get Lazy and Spiritless as They Grow Old.

As he grows old a lion gets lazy and quiteless, says Everybody's. The mighty beast that stares at the crowd outside his cage usually is as fierce of mien as a fat night watchman who glares out upon the dark world through the circle of light cast by the lamp at his feet.

With plenty to eat, nothing to annoy him and a keeper to look after his wants, the king of beasts becomes as peaceful, portly and self satisfied as some of our latter day human monarchs, whose ministers of army, navy, police and other things take proper care of the regal edge and see to it that the usual three square meals per day await the royal gullet at the proper hours.

The story book impression that lions are always on the hunt in their native wilds is quite at variance with the truth. Indeed, the older lions will frequently go hungry or seek the leavings of another beast's kill rather than summon the energy to hunt prey for themselves.

In a group of ten or twelve trained lions two or three young, nervous animals usually supply the act with all its dash and spirit. The others are somnambulists.

Tigers, too, frequently grow lethargic with advancing years, but never to such a degree as the aging lion. There is always a pinch of ginger in the big striped cat. For that reason he makes a more spectacular performer than the lion and usually a tougher proposition for the trainer.

Hexamethylenetetramine.

The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by the medical text books and authorities as a uric acid solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. J. W. McCollum & Co.

When John Was In Doubt.

John was a coachman who took life most seriously and, being very particular, would return frequently in the course of the day to make sure he understood the orders that had been given him in the morning. One afternoon he presented himself before his mistress and began:

"Mrs. T., Oi'm not quite certain ez to Mr. T.'s ordher this mornin'. Oi was dhrivin' him to the thrain, an' he noticed that the horse was lame, an' he told me to do somethin' to him, sure; but, sure, Oi don't know whither he told me to shoe him or to shoot him. Maybe ye can till me."

A shoeing was evidently required, but the execution of the order and exercise of the horse was deferred until Mr. T. returned.

TO KILL THE DANDRUFF GERM.

The Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have thin brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ creeping into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

The Bite of a Rattler.

The Cherokee Indians' cure for the bite of a rattlesnake is at once so common sense and scientific as to merit a widespread acceptance. Its common sense lies in the fact that the victim has or ought to have the necessary implement always at hand, there need not be an instant's delay, and that it is the scientific plan goes without saying because it carries away the poison at once. The Indian at once, when bitten, drawing his knife, pinched up the part bitten and cut it out, then, seeking the nearest stream, not often very far away, plunged the leg in the running water and kept it there until all bleeding had ceased and, as my informant, an old man, told me, seldom suffered any ill effects.

Usually, as we know, no physician can be reached or reliable remedy had until the case is too far gone for any effort to avail, but with a knife and, if not a running stream, water enough to keep the wound well washed and the blood flowing I believe there would be fewer deaths following rattlesnake bites.—Forest and Stream.

C. R. Kluger, the jeweler, 1060 Virginia avenue, Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can now attend to business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me after the doctors and other remedies had failed." Bogus Antiques.

Old statuary is made in great quantities in Italy. Bohemia and Belgium furnish glass of the middle ages, and every European capital has its makers of antiques. Berlin and Vienna makers are kept busy with the home trade, but Paris, London, Brussels, Rome, Florence, Smyrna and Munich are commercial centers for this class of merchandise. The business has grown to such proportions that Nuremberg, Vienna and Livorno have museums where counterfeit works are exhibited and where their style of manufacture may be studied.—Berlin Post.

Pneumonia Follows Lagrippe.

Pneumonia often follows lagrippe but never follows the use of Foley's Honey and Tar, for lagrippe coughs and deep-seated colds. Refuse any but the genuine in the yellow package. J. W. McCollum & Co.

If thou continuest to take delight in idle argumentation thou mayest be qualified to combat with the sophists, but never know how to love with men.—Socrates.

Hoarse coughs and stuffy colds that may develop into pneumonia over night are quickly cured by Foley's Honey and Tar, and it soothes inflamed membranes, heals the lungs, and expels the cold from the system. J. W. McCollum & Co.

He Knew English.

Book learning, strictly speaking—that is, learning solely from books—leads one into many a hole. In "The Balkan Trail" Frederick Moore tells the story of an Italian official of the Ottoman bank who had taught himself English and was enraptured at the chance to practice it on English people.

It was with much pride that he addressed us at supper, but we did not recognize the language he spoke and expressed in French our unfortunate ignorance of foreign tongues.

"That is your own tongue," said the Italian, but even of this statement we understood not a word.

He drew a pencil from his pocket and on the back of a letter wrote:

"I am speaking English."

We were astounded.

"Perhaps I do not pronounce correctly," he wrote next. "I have learned the noble language from books."

The hilarious Englishman in our party gave the unhappy Italian his first real lesson at once. He took the pencil and wrote:

"Always pronounce English as it is not spelt. Spell as it is not pronounced."
